WORKING PROGRAM OF THE DISCIPLINE

B1.ED.03 Applied physical training

Field of training

38.03.02 Management

Qualification

Bachelor's Degree

Developed the program:

Department name	Position, academic degree, academic title	Full name of the developo
FV	Assoc. Prof., PhD, Assoc. Prof.	Ibragimov I.F.

Approval	Name Department	Date	Protocol No	Signature
Approved	FV	17.03. 2026	Protocol №7	_____ Head of Department, PhD, Assoc. Prof. Vasenkov N. V.
Agreed	Management	10.02. 2026	Protocol №5	_____ Head of department, doctor of social sciences, prof. Makhiyanova A.V.
Agreed	Educational and Methodological Council of IDTE	24.02. 2026	Protocol №6	_____ Director, Ph.D., Associate Professor, Zainullin R.R..
Approved	Scientific Council of IDTE	24.02. 2026	Protocol №6	_____ Director, Ph.D., Associate Professor, Zainullin R.R..

1. Purpose, objectives, and planned learning outcomes for the discipline

(Purpose and objectives of the discipline, corresponding to the objectives of the educational program)

The purpose of the discipline «Elective Disciplines in Physical Culture and Sports: Applied Physical Training» is to develop an individual's physical culture and the ability to use various means of physical culture, sports, and tourism to maintain and improve health, as well as to prepare for future life and professional activities.

The objectives of the discipline are:

- maintaining and strengthening students' health, promoting proper formation and comprehensive development of the body, and maintaining high performance throughout the entire period of study; understanding the social significance of applied physical training and its role in personal development and preparation for professional activity;

- formation of a motivational and value-based attitude towards physical culture, a healthy lifestyle, physical improvement, and self-education of a habit of regular physical exercise and sports;

- mastering a system of practical skills and abilities that ensure the preservation and strengthening of health, mental well-being, development and improvement of psychophysical abilities, qualities, and personality traits, and self-determination in physical culture and sports;

- creating a foundation for the creative and methodologically sound use of physical education and sports activities for subsequent life and professional achievements;

- improving the athletic skills of student athletes

Competencies and indicators that students acquire:

Code and name of the competence	Code and name of the indicator
UK-7 – Capable of maintaining an adequate level of physical fitness to ensure full-fledged social and professional activities	UK-7.2 – Performs individually selected complexes of health-improving or adaptive physical culture

2. The place of the discipline in the curriculum

The discipline «Applied physical training» belongs to the elective disciplines of Block 1 «Disciplines (modules)» of the curriculum in the field of training 03/38/02 Management

3. Structure and content of the discipline

3.1. Structure and content of the discipline

For full-time education

3.2. The content of the discipline, structured by sections and types of activities

Discipline sections	Total hours	Distribution of labor intensity by types of educational work				Forms and type of control	Indices of indicators of formed competencies

3.3. Content of the discipline

Section 1. Athletics.

Topic 1.1. Exercises for developing strength, agility, speed and coordination of movements. / PZ / SRS

Topic 1.2. Special running and jumping exercises. / PZ / SRS

Topic 1.3. Training in sports walking techniques. / PZ

Topic 1.4 Training in short-distance running techniques. / PZ / SRS

Topic 1.5. Training in the technique of middle-distance running (cross-country running). / PZ

Topic 1.6. Control «express» tests on general physical training. / PZ

Section 2. General physical fitness

Topic 2.1. Training Technical training: right walk correctly, maintain your posture, and observe your breathing. / PZ / SRS

Topic 2.2 Performing physical exercises that contribute to the overall health of the body. / PZ

Topic 2.3. Performing a set of physical exercises that contribute to the overall strengthening of the cardiovascular and respiratory systems. / PZ / SRS

Topic 2.4. Training of physical culture means aimed at developing students' endurance. / PZ

Topic 2.5. Training in shuttle running techniques. / PZ / SRS

Topic 2.6. Control «express» tests on general physical training. / PZ

Section 3. Basketball.

Topic 3.1. Learning how to move, stop, and jump. / PZ / SRS

Topic 3.2. Training in two-handed transfers from the chest, with two hands above. / PZ / SRS

Topic 3.3. Training in two-handed transfers from below, one hand from the shoulder. / PZ

Topic 3.4. Learning to pass the ball with one hand from the head, from the bottom to the side, with one hand «hook», hidden transfer. / PZ

Topic 3.5. Training in the technique of driving the ball. / PZ / SRS

Topic 3.6. Control «express» - tests on general physical training. / PZ

Section 4. General physical training

Topic 4.1. Improvement of technique: walk correctly, maintain posture, observe breathing. / PZ

Topic 4.2. Improving the technique of performing physical exercises that contribute to the overall recovery of the body. / PZ / SRS

Topic 4.3. Teaching the technique of performing general developmental exercises in motion and on the spot. / PZ / SRS

Topic 4.4. Improving the technique of performing exercises with weights. /

PZ

Topic 4.5. Improvement of a set of physical exercises that contribute to the overall strengthening of the cardiovascular and respiratory systems. / PZ

Topic 4.6. Control «express» tests on general physics preparation. / PZ / SRS

Section 5. Volleyball

Topic 5.1. Training of a volleyball player's stance and movements. / PZ / SRS

Topic 5.2. Training in the technique of passing the ball from above with two hands. / PZ /

Topic 5.3. Training in the technique of passing the ball from above with two hands in jump. / PZ / SRS

Topic 5.4. Teaching the technique of passing the ball from above with two hands and the technique of passing the ball from above with two hands above yourself. OFP. / PZ

Topic 5.5. Improving the technique of passing the ball from above with two hands and the technique of passing the ball from above with two hands above yourself. Training in the technique of passing the ball from above with both hands backwards. / PZ

Topic 5.6. Control «express» tests on general physical training. / PZ

Section 6. Athletics.

Topic 6.1. Improvement of sports walking techniques. / PZ / SRS

Topic 6.2. Improving the technique of short-distance running. / PZ / SRS

Topic 6.3. Training in the shot-put technique. / PZ

Topic 6.4. Training in grenade throwing techniques. / PZ

Topic 6.5. Improving the technique of middle-distance running (cross-country running). / PZ / SRS

Topic 6.6. Control «express» - tests on general physical training. / PZ

Section 7. Athletics.

Topic 7.1. Development of basic physical qualities

Topic 7.2. Special running and jumping exercises. / SRS

Topic 7.3. Improvement of the shot-put technique. / PZ

Topic 7.4. Training in the long jump technique with a run-up. / PZ

Topic 7.5. Improving the technique of throwing grenades. / PZ / SRS

Topic 7.6. Control «express» - tests on general physical training. / PZ

Section 8. General physical training

Topic 8.1. Training in the technique of performing exercises with fitness balls and an expander. / PZ / SRS

Topic 8.2. Improving the technique of performing general developmental exercises in motion and on the spot. / PZ / SRS

Topic 8.3. Training in the technique of performing exercises with a barbell. / PZ

Topic 8.4. Improving the technique of performing exercises with a burden. / PZ / SRS

Section 9. Basketball.

Topic 9.1. Training in the technique of driving the ball in combination with other techniques. / PZ / SRS

Topic 9.2. Training in the technique of throwing the ball with one hand from the shoulder from a standing position, in a jump. / PZ / SRS

Topic 9.3. Training feints in combination with other techniques. / PZ

Topic 9.4. Learning to pass the ball with one hand from the head, from the bottom to the side, with one hand «hook», hidden transfer. / PZ / SRS

Topic 9.5. Training of technical actions of players in attack, stops, turns, jumps. / PZ

Topic 9.6. Control «express» - tests on general physical training. / PZ

Section 10. General physical fitness

Topic 10.1. Training exercises on simulators and special devices. / PZ / SRS

Topic 10.2. Training in the technique of performing a push of two weights from the chest. / PZ

Topic 10.3. Improving the technique of performing exercises with fitness balls and an expander. / PZ / SRS

Topic 10.4. Improving the technique of performing exercises with a barbell. / PZ / SRS

Topic 10.5. Training in the technique of performing swings of interceptions, kettlebells. / PZ Topic 10.6. Control «express» tests on general physics preparation. / PZ

Section 11. Volleyball

Topic 11.1. Improving the technique of passing the ball from above with two hands in various ways. OFP. / PZ / SRS

Topic 11.2. Training in the technique of passing the ball from below with two hands. / PZ

Topic 11.3. Training in the technique of passing the ball from below with two hands and passing the ball from below with one hand. / PZ / SRS

Topic 11.4. Training in the technique of passing the ball from below with two hands. Training in the technique of receiving the ball. / PZ

Topic 11.5. Improving the reception and subsequent transmission of the ball from below with both hands. Training in the technique of passing the ball from below with both hands backwards. / PZ / SRS

Topic 11.6. Control «express» tests on general physical training. / PZ

Section 12. Athletics

Topic 12.1. Teaching relay running techniques. / PZ / SRS

Topic 12.2. Training in the long jump technique with a run-up. / PZ / SRS

Topic 12.3. Improving the technique of the long jump with a run-up. / PZ Topic

12.4. Improving the technique of relay running. / PZ / SRS

Topic 12.5. Improving the technique of throwing grenades. / PZ

Topic 12.6. Control «express» tests on general physical training. / PZ

Section 13. Athletics.

Topic 13.1. Improvement of special physical, technical and tactical training in cross-country athletics. / PZ

Topic 13.2. Control «express» tests on general physical training. / PZ

Section 14. General physical training

Topic 14.1. Improving the technique of performing exercises for the flexor muscles of the arms. / PZ

Topic 14.2. Improving the technique of performing exercises on simulators and special devices. Improving the technique of performing a push of two weights from the chest. / PZ

Topic 14.3. Control «express» tests on general physical training. / PZ

Section 15. Basketball.

Topic 15.1. Training of technical actions of players in attack, throws, finishing moves. Training of tactical actions of players in attack, individual actions with and without the ball. / PZ

Topic 15.2. Training of tactical actions of players in defense, individual. Training of tactical actions of players in attack, group interactions. Training of players' tactical actions in defense, group and team. / PZ

Topic 15.3. Control «express» tests on general physical training. / PZ

Section 16. General physical training

Topic 16.1. Improving the technique of performing exercises with fitness balls and an expander. Improving the technique of performing exercises with weights. / PZ

Topic 16.2. Improving the technique of performing general developmental exercises in motion and on the spot. Improving the technique of performing exercises with a barbell. / PZ

Topic 16.3. Control «express» tests on general physical training. / PZ

Section 17. Volleyball

Topic 17.1. Improving the upper and lower ball passing. Upper straight serve training. / PZ

Topic 17.2. Control «express» - tests on general physical training. / PZ

Section 18. Athletics

Topic 18.1. Improvement of sports walking techniques. / PZ

Topic 18.2 Control «express» - tests on general physical training. / PZ

Section 19. Athletics.

Topic 19.1. Development of basic physical qualities. Special running and jumping exercises. / PZ

Topic 19.2. Control «express» - tests on general physical training. / PZ

Section 20. General physical fitness

Topic 20.1. Training in the technique of performing exercises for the flexor muscles of the arms. Improving the technique of performing exercises on simulators and special devices/ PZ

Topic 20.2. Control «express» tests on general physical training. / PZ

Section 21. Basketball.

Topic 21.1. Training in competition rules. / PZ

Topic 21.2. Control «express» - tests on general physical training. / PZ

Section 22. General physical fitness

Topic 22.1. Control «express» tests on general physical training. / PZ

Section 23. Volleyball

Topic 23.1. Learning the rules of volleyball. / PZ

Topic 23.2. Control «express» - tests on general physical training. / PZ

Section 24. Athletics.

Topic 24.1. Training in the long jump technique. / PZ

Topic 24.2. Control «express» - tests on general physical training. / PZ

3.4. Thematic plan of practical exercises

Section 1. Athletics.

Topic 1.1. Exercises for developing strength dexterity, speed and coordination of movements.

Topic 1.2. Special running and jumping exercises. Topic 1.3. Training in sports walking techniques.

Topic 1.4 Training in short-distance running techniques.

Topic 1.5. Training in middle-distance running (cross-country) techniques running).

Topic 1.6. Control «express» tests on general physics preparation.

Section 2. General physical fitness

Topic 2.1. Technique training: walk correctly, maintain posture, observe breathing.

Topic 2.2 Performing physical exercises that contribute to the overall health of the body.

Topic 2.3. Performing a set of physical exercises that contribute to the overall strengthening of the cardiovascular and respiratory systems.

Topic 2.4. Training of physical culture means aimed at developing students' endurance.

Topic 2.5. Training in shuttle running techniques.

Topic 2.6. Control «express» tests on general physical training.

Section 3. Basketball.

Topic 3.1. Learning how to move, stop, and jump.

Topic 3.2. Training in two-handed transfers from the chest, with two hands on top.

Topic 3.3. Training in two-handed transfers from below, one hand from the shoulder.

Topic 3.4. Learning to pass the ball with one hand from the head, from the bottom to the side, with one hand «hook», hidden transfer.

Topic 3.5. Training in the technique of driving the ball.

Topic 3.6. Control «express» - tests on general physical training.

Section 4. General physical training

Topic 4.1. Improvement of technique: walk correctly, maintain posture, observe breathing.

Topic 4.2. Improving the technique of performing physical exercises that contribute to the overall health of the body.

Topic 4.3. Training in the technique of performing general developmental exercises in motion and on the spot.

Topic 4.4. Improving the technique of performing exercises with weights.

Topic 4.5. Improvement of the complex of physical exercises, contributing to the overall strengthening of the cardiovascular and respiratory systems.

Topic 4.6. Control «express» tests on general physical training.

Section 5. Volleyball

Topic 5.1. Training of a volleyball player's stance and movements.

Topic 5.2. Training in the technique of passing the ball from above with two hands.

Topic 5.3. Training in the technique of passing the ball from above with two hands in a jump.

Topic 5.4. Teaching the technique of passing the ball from above with two hands and the technique of passing the ball from above with two hands above yourself. OFP.

Topic 5.5. Improving the technique of passing the ball from above with two hands and the technique of passing the ball from above with two hands above yourself. Training in the technique of passing the ball from above with both hands backwards.

Topic 5.6. Control «express» tests on general physical training.

Section 6. Athletics.

Topic 6.1. Improvement of sports walking techniques.

Topic 6.2. Improving the technique of short-distance running. Topic 6.3. Training in the shot-put technique.

Topic 6.4. Training in grenade throwing techniques.

Topic 6.5. Improving the technique of middle-distance running (cross-country running).

Topic 6.6. Control «express» - tests on general physical training.

Section 7. Athletics.

Topic 7.1. Development of basic physical qualities.

Topic 7.2. Special running and jumping exercises.

Topic 7.3. Improvement of the shot-put technique.

Topic 7.4. Training in the long jump technique with a run-up.

Topic 7.5. Improving the technique of throwing grenades.

Topic 7.6. Control «express» - tests on general physical training.

Section 8. General physical training

Topic 8.1. Training in the technique of performing exercises with fitness balls and an expander.

Topic 8.2. Improving the technique of performing general developmental exercises in motion and on the spot.

Topic 8.3. Training in the technique of performing exercises with a barbell.

Topic 8.4. Improving the technique of performing exercises with weights.

Topic 8.5. Control «express» - tests on general physical training.

Section 9. Basketball.

Topic 9.1. Training in the technique of driving the ball in combination with other techniques.

Topic 9.2. Training in the technique of throwing the ball with one hand from the shoulder from a standing position, in a jump.

Topic 9.3. Training feints in combination with other techniques.

Topic 9.4. Learning to pass the ball with one hand from the head, from the bottom to the side, with one hand «hook», hidden transfer.

Topic 9.5. Training of technical actions of players in attack, stops, turns, jumps.

Topic 9.6. Control «express» - tests on general physical training.

Section 10. General physical fitness

Topic 10.1. Training exercises on simulators and special devices.

Topic 10.2. Training in the technique of performing a push of two weights from the chest.

Topic 10.3. Improving the technique of performing exercises with fitness balls and an expander.

Topic 10.4. Improving the technique of performing exercises with a barbell.

Topic 10.5. Training in the technique of performing swings of interceptions, kettlebells.

Topic 10.6. Control «express» - tests on general physical training.

Section 11. Volleyball

Topic 11.1. Improving the technique of passing the ball from above with two hands in various ways. OFP.

Topic 11.2. Training in the technique of passing the ball from below with two hands.

Topic 11.3. Training in the technique of passing the ball from below with two hands and passing the ball from below with one hand.

Topic 11.4. Training in the technique of passing the ball from below with two hands. Training in the technique of receiving the ball.

Topic 11.5. Improving the reception and subsequent transmission of the ball from below with both hands. Training in the technique of passing the ball from below with both hands backwards.

Topic 11.6. Control «express» tests on general physical training.

Section 12. Athletics

Topic 12.1. Teaching relay running techniques.

Topic 12.2. Training in the long jump technique with a run-up.

Topic 12.3. Improving the technique of the long jump with a run-up.

Topic 12.4. Improving the technique of relay running.

Topic 12.5. Improving the technique of throwing grenades.

Topic 12.6. Control «express» - tests on general physical training.

Section 13. Athletics.

Topic 13.1. Improvement of special physical, technical and tactical training in cross-country athletics.

Topic 13.2. Control «express» tests on general physical training.

Section 14. General physical training

Topic 14.1. Improving the technique of performing exercises for the flexor muscles of the arms.

Topic 14.2. Improving the technique of performing exercises on simulators and special devices. Improving the technique of performing a push of two weights from the chest.

Topic 14.3. Control «express» tests on general physical training.

Section 15. Basketball.

Topic 15.1. Training of technical actions of players in attack, throws, finishing moves. Training of tactical actions of players in attack, individual actions with and without the ball

Topic 15.2. Training of tactical actions of players in defense, individual. Training of tactical actions of players in attack, group interactions. Training of players' tactical actions in defense, group and team.

Topic 15.3. Control «express» tests on general physical training.

Section 16. General physical training

Topic 16.1. Improving the technique of performing exercises with fitness balls and an expander. Improving the technique of performing exercises with weights.

Topic 16.2. Improving the technique of performing general developmental exercises in motion and on the spot. Improving the technique of performing exercises with a barbell.

Topic 16.3. Control «express» tests on general physical training.

Section 17. Volleyball

Topic 17.1. Improving the upper and lower ball passing.

Upper straight serve training.

Topic 17.2. Control «express» - tests on general physical training.

Section 18. Athletics

Topic 18.1. Improvement of sports walking techniques.

Topic 18.2. Control «express» - tests on general physical training.

Section 19. Athletics.

Topic 19.1. Development of basic physical qualities.

Special running and jumping exercises.

Topic 19.2. Control «express» - tests on general physical training.

Section 20. General physical fitness

Topic 20.1. Training in the technique of performing exercises for the flexor muscles of the arms. Improving the technique of performing exercises on simulators and special devices

Topic 20.2. Control «express» tests on general physical training.

Section 21. Basketball.

Topic 21.1. Training in competition rules.

Topic 21.2. Control «express» - tests on general physical training.

Section 22. General physical fitness

Topic 23.1. Control «express» tests on general physical training.

Section 23. Volleyball

Topic 23.1. Learning the rules of volleyball.

Topic 23.2. Control «express» - tests on general physical training.

Section 24. Athletics.

Topic 24.1. Training in the long jump technique.

Topic 24.2. Control «express» - tests on general physical training.

3.5. Thematic plan of laboratory work

«This type of work is not provided for in the curriculum. »

3.6. Course project /course work

«This type of work is not provided for in the curriculum. »

4. Evaluating learning outcomes

Assessment of the results of training in the discipline is carried out within the framework of current control and intermediate certification, conducted according to the point-rating system (BRS).

Scale of assessment of learning outcomes in the discipline:

Com pany code- Compe tence	Code	Code of the competence indicator Planned results of training in the discipline	Level of formation of formation of the competence indicator			
			High	Average	Below average	Low
			from 85 to 100	from 70 to 84	from 55 to 69	from 0 to 54
			Assessment scale			
			excellent	good	satisfactory	nedov- unsatisfa ctory- credited

An «excellent» grade is awarded to a student who has demonstrated a comprehensive, systematic and deep knowledge of the program material; the ability to freely perform tasks provided for in the program; who has mastered the main literature and is familiar with the additional recommended program; who has mastered the relationship of the main concepts of the discipline in their meaning for the acquired profession; who has shown creative abilities in understanding, presenting and using educational material.

A student who has found complete knowledge of the program material, who has successfully completed the tasks provided for in the program, who has mastered the main literature recommended in the program, who has shown the systematic nature of knowledge in the discipline and the ability to independently replenish and update them in the course of professional activity deserves a «good» rating.

A student who has found knowledge of the main educational and program material to the extent necessary for further study and upcoming work in the specialty; copes with the tasks provided for in the program, and is familiar with the main literature recommended by the program deserves a «satisfactory» rating. As a rule, the grade «satisfactory» is given to students who have made errors in the answer to the exam and when performing exam tasks, but who have the necessary knowledge to eliminate them under the guidance of a teacher.

The grade «unsatisfactory» is assigned to a student who has discovered gaps in the knowledge of the main educational and program material, who has made fundamental mistakes in performing the tasks provided for in the program.

The «credited» rating meets the rating criteria from «excellent» to «satisfactory.»

Estimation «The not credited» rating meets criteria the evaluation criteria «unsatisfactory».

Evaluation materials for conducting current control and interim certification are given in the Appendix to the discipline's work program.

The complete set of tasks and materials required for evaluating the results of training in the discipline is stored at the developer's department.

5. Educational, methodical and informational support of the discipline

5.1. Educational and methodical support

5.1.1 Basic literature

6 Material and technical support of the discipline

Name of the type of educational work	Name of the classroom, specialized laboratory	List of necessary equipment and technical means of training
Practical classes	Building of Building B. Sports hall (auditorium No. 100).	Basketball boards (2 pcs.), volleyball net (1 pc.), gym walls (4 pcs.), tennis tables (2 pcs.). Inventory: volleyball balls (10 pcs.), basketballs (10 pcs.), jump ropes (10 pcs.), tennis rackets (4 pcs.). exercise equipment (different) - (15 pcs.), barbell with a set of pancakes (2 pcs.), dumbbells 1.5 kg.
		(10 pcs.), 2 kg. – (10 pcs.), 3 kg. (10 pcs.), table for playing n/tennis (2 pcs.), rackets n/tennis (10 pcs.), ball n/tennis (20 pcs.). Boxing ring.
	Building E. Gymnasium, wrestling hall, gym, shooting range.	basketball boards (6 pcs.), racks and volleyball nets (1 pc.), gym walls (8 pcs.), electric scoreboard (2 pcs.). Inventory: stuffed balls 2 kg. (10 pcs.), 3 kg. (10 pcs.), volleyball balls (10 pcs.), basketballs (10 pcs.), cones (6 pcs.), relay sticks (20 pcs.), jump ropes (20 pcs.), gym mats (10 pcs.). the simulator is complex, a barbell with a set of pancakes, dumbbells of 1.5 kg. (10

		pcs.), 2 kg. – (10 pcs.), 3 kg. (10 pcs.), table for playing n / tennis, rackets n / tennis (10 pcs.), ball n / tennis (20 pcs.)
Independent work	Computer class with Internet access B-600a	Specialized educational furniture for 30 seats, 30 computers, technical средства training equipment (multimedia projector, computer (laptop), screen), video cameras, software
	Library Reading room	Specialized furniture, computer equipment with Internet access and Internet access EIE, screen, multimedia projector, software
	Classroom for completing a course project (term paper) _____ (Indicated if there is a CR/KP and such an audience)	Specialized furniture, computer equipment with access to the Internet and providing access to the EIE, software

7 Features of the organization of educational activities for persons with disabilities and disabled people

Persons with disabilities and persons with disabilities have the opportunity to move freely from one educational and laboratory building to another, to climb all floors of educational and laboratory buildings, to study in educational and other premises, taking into account the peculiarities of psychophysical development and health status.

Conditions of unhindered access to all educational facilities are provided for the training of persons with disabilities and disabled people with musculoskeletal disorders. Information about the special conditions created for students with disabilities and disabilities is available on the university's website [www// kgeu. ru](http://www.kgeu.ru). It is possible to provide technical assistance assistant, as well as services of sign language interpreters and typhlosurd interpreters.

To adapt to the perception of reference and educational material on the discipline by persons with disabilities and hearing impairments, the following conditions are provided:

- for better orientation in the classroom, use alerts about the beginning and end of the lesson (the word «call» is written on the blackboard).
- the teacher draws the attention of a hard-of-hearing student with a gesture (a hand is placed on the shoulder; a soft pat is performed).
- when talking to a student, the teacher looks at them, speaks clearly, in short sentences, providing the ability to read lips.

Compensation for difficulties in speech and intellectual development of hard-of-hearing students is carried out by:

- use diagrams, diagrams, drawings, and computer presentations with hyperlinks that comment on individual image components.
- Regular use of exercises for graphic selection of essential features of objects and phenomena;

- providing an opportunity for the student to receive targeted advice by e-mail as needed.

The following conditions are provided for adaptation to the perception of reference, educational, and educational materials provided by the educational program for the chosen field of study by persons with disabilities and visually impaired people:

- The official website on the Internet is being adapted to meet the special needs of visually impaired people, large-scale and large-scale reference information on the schedule of training sessions is being provided.

- the teacher and his interlocutor (if necessary) who are present at the lesson are introduced to the students, and each time the person to whom the teacher addresses is called;

- actions, gestures, and movements of the teacher are briefly and clearly commented on.

- printed information is provided in large font (starting from 18 points) and is fully voiced.

- provides the necessary level of illumination of the premises;

- it is possible to use computers during classes and the right to record explanations on a voice recorder (at the request of students). The form

of conducting current and intermediate certification for students with disabilities and disabilities is determined by the teacher in accordance with the curriculum. If necessary, a student with disabilities, taking into account their individual psychophysical characteristics, is given the opportunity to pass an interim certification orally, in writing on paper, in writing on a computer, in the form of testing, etc., or additional time is provided for preparing the response.

8 Methodological recommendations for teachers on the organization of educational work with students.

Methodological support of the process of education of students is one of the determining factors of high quality of education. A university teacher, demonstrating high professionalism, erudition, a clear civic position, self-discipline, and a creative approach to solving professional problems, contributes to the formation of a harmonious personality during the educational process.

When implementing the discipline, the teacher can use the following methods of educational work:

- methods of forming a person's consciousness (conversation, dispute, suggestion, instruction, control, explanation, example, self-control, story, advice, persuasion, etc.);

- methods of organizing activities and forming behavioral experience (task, public opinion, pedagogical requirement, assignment, training, creating educational situations, training, exercise, etc.);

- methods of motivating activity and behavior (approval, encouragement of social activity, censure, creating success situations, creating situations for emotional and moral experiences, competition, etc.)

When implementing the discipline, the teacher should take into account the following areas of educational activity:

Civic and patriotic education:

- formation of students ' holistic worldview, Russian identity, respect for their family, society, state, spiritual, moral and socio-cultural values accepted in the family and society, national, cultural and historical heritage, formation of the desire for its preservation and development;

- formation of students ' active citizenship based on traditional cultural, spiritual and moral values of Russian society, in order to increase their ability to responsibly exercise their constitutional rights and obligations;

- development of legal and political culture of students, expansion of constructive participation in decision-making affecting their rights and interests, including in various forms of self-organization, self-government, socially significant activities;

- formation of motives, moral and semantic attitudes of the individual, allowing to resist extremism, xenophobia, discrimination on social, religious, racial, national grounds, interethnic and interfaith intolerance, and other negative social phenomena.

Spiritual and moral education:

- education of a sense of dignity, honor and honesty, conscientiousness, respect for parents, teachers, and older people;

- formation of the principles of collectivism and solidarity, the spirit of mercy and compassion, the habit of caring for people in difficult life situations;

- building solidarity and a sense of social responsibility in relation to people with disabilities, overcoming psychological barriers in relation to people with disabilities;

- formation of an emotionally rich and spiritually elevated attitude to the world, the ability and ability to pass on your aesthetic experience to others.

Cultural and educational education:

- forming an aesthetic picture of the world;

- formation of respect for the cultural values of the native city, region, or country;

- improving students ' cognitive activity.

Scientific and educational education:

- formation of students ' scientific worldview;

- formation of the ability to acquire knowledge;

- formation of skills in analyzing and synthesizing information, including in the professional field.

ASSESSMENT MATERIALS
for the discipline

B1.ED.03 Applied physical training

(Name of the discipline in accordance with the curriculum)

Kazan, 2026

Assessment materials on the discipline, designed to assess the results of

who missed classes due to illness									
Lifting the torso from the supine position (number of times in 1 min) or an abstract for students who missed classes due to illness		5						5	5
Section 5. «Volleyball»	TK5			15	0-15			15-30	15-30
Passing the ball from above with two hands above you (count of times) (counter. norm.) or a test for students who missed classes due to illness				4				4	4
Passing the ball from below them (count of times) (counter. norm.) or report (article) for students who missed classes due to illness				4				4	4
Serve the ball from below (counter. norm.) or an abstract for students who missed classes due to illness				7				7	7
Section 6. «Athletics»	TK6					25	0-15	25-40	25-40
3000 m run for boys, 2000 m girls (min. sec.) or a test for students who missed classes due to illness						9		9	9
100 m run (sec.) or a report (article) for students who missed classes due to illness						8		8	8
Long jump from a standing position with a push of two legs (cm) (counter. norm.) or report (article) for students who missed classes due to illness						8		8	8
Credit	OM								55-100

3.Term

Name of section		Rating indicators
-----------------	--	-------------------

		I current control	Additional points to TK1	II current control	Additional points to TK2	III current control	Additional points to TK3	Total	Intermediate certification
Section 7. «Athletics»	TK7	15	0-15					15-30	15-30
Shuttle run 3x10 m (s) (counter. norm.) or a test for students who missed classes due to illness		5						5	5
Long jump from a place with a push of two legs (cm) (counter. norm.) or report (article) for students who missed classes due to illness		5						5	5
Running 60 m (s) (counter. norm.) or an abstract for students who missed classes due to illness		5						5	5
Section 8. «OFP»	TK8			15	0-15			15-30	15-30
Lean forward from a standing position on a gymnastic bench (from the bench level –cm) (counter. norm.) or test for students who missed classes due to illness				7					
Pull-up from hanging on a high crossbar (boys), on a low crossbar (girls) (number of times) (counter. normal) or flexion extension of the arms while lying on the floor (number of times) or report (article) for students who missed classes due to illness				4					
Lifting the torso from the supine position (number of times in 1 min) (counter. norm.) or an abstract for students who missed classes due to illness				4					
Section 9. «Basketball»	TK 9					25	0-15	25-40	25-40
Passing the ball in pairs in 30 seconds or a test for students who missed classes due to illness						9		9	9

Throwing into the ring from the penalty line (number of times) (counter norm) or a report (article) for students who missed classes due to illness						8		8	8
Driving the ball with the outline of cones (distance between cones 3 m, a segment of 15 m (round trip) (counter. norm.) or an abstract for students who missed classes due to illness						8		8	8
Credit	OM								55-100

2. Evaluation materials of current control and interim certification

Scale of assessment of learning outcomes in the discipline:

			ий with a group (B1)	ий with a group (B1)	ий with a group (B1)	the group (B1)
--	--	--	-------------------------------	-------------------------------	-------------------------------	----------------------

An «excellent» grade is awarded to a student who has demonstrated a comprehensive, systematic and deep knowledge of the program material; the ability to freely perform tasks provided for in the program; who has mastered the main literature and is familiar with the additional recommended program; who has mastered the relationship of the main concepts of the discipline in their meaning for the acquired profession; who has shown creative abilities in understanding, presenting and using educational material.

A student who has found complete knowledge of the program material, who has successfully completed the tasks provided for in the program, who has mastered the main literature recommended in the program, who has shown the systematic nature of knowledge in the discipline and the ability to independently replenish and update them in the course of professional activity deserves a «good» rating.

A student who has found knowledge of the main educational and program material to the extent necessary for further study and upcoming work in the specialty; copes with the tasks provided for in the program, and is familiar with the main literature recommended by the program deserves a «satisfactory» rating. As a rule, the grade «satisfactory» is given to students who have made errors in the answer to the exam and when performing exam tasks, but who have the necessary knowledge to eliminate them under the guidance of a teacher.

The grade «unsatisfactory» is assigned to a student who has discovered gaps in the knowledge of the main educational program.

Material that has made fundamental mistakes in completing the tasks provided for in the program.

The «credited» rating meets the rating criteria from «excellent» to «Satisfactory.»

Estimation «The not credited» rating meets criteria the evaluation criteria «unsatisfactory».

3. List of evaluation tools

Brief description of the assessment tools used in the current monitoring of academic performance and intermediate certification of a student in the discipline:

Name of the evaluation tool	Brief description of the evaluation tool	Description of the evaluation tool
Report (Dkl), message (SbsSbs)	The product of independent work of the student, which is a public speech on the presentation of the obtained results of solving a certain educational and practical, educational and research or scientific topic	Topics of reports, messages
Control standards (KN)	Assessment of general and special physical fitness of students, assessment of the technique of performing motor actions	List of practical tasks, control exercises
Abstract (Rfr)	The product of independent work of the student, which is a written summary of the results of theoretical analysis of a certain scientific (educational and research) topic	of the topic of essays
Test (Test)	A system of standardized tasks that allows you to automate the procedure for measuring the level of knowledge and skills of a student	A set of test tasks

4. A list of control tasks or other materials necessary for assessing knowledge, skills and abilities that characterize the stages of competence formation in the course of mastering the discipline

For current control of TC1:

Verifiable competence: CC-7.2

Test

Question	Answer options
1. In what year were the first track and field competitions held?	A) 776 BC;
	B) 888
	; C) 1896;
	D) 1912
2. The athletics disciplines do NOT include ...	A) running;
	B) jumping;
	C) lifting weights;
	D) throwing.
3. How to start running on	A) From a low start.

<i>medium and long distances?</i>	<i>B) From a move;</i>
	<i>C) From a high start;</i>
	<i>D) With one-handed support.</i>
<i>4. What is a sprint?</i>	<i>A) The referee at the start;</i>
	<i>B) Long-distance running;</i>
	<i>C) Short-distance running;</i>
	<i>D) Throwing the ball.</i>
<i>5. Select a row that lists the exercises that are included in the types of athletics:</i>	<i>A) running, walking, jumping, throwing, all-around;</i>
	<i>B) outdoor games;</i>
	<i>C) swimming;</i>
	<i>D) exercise for the development of the lower extremities.</i>
<i>6. Outdoor games should be held:</i>	<i>A) only on the sports field;</i>
	<i>B) only in compliance with the rules and safety regulations;</i>
	<i>C) only in the sports hall.</i>
<i>7. What is the most dangerous type of bleeding?</i>	<i>A) Venous;</i>
	<i>B) Arterial;</i>
	<i>C) Internal;</i>
	<i>D) Intracranial.</i>
<i>8. Injuries are often caused by:</i>	<i>A) disdainful attitude to the preparatory part of the lesson, warm-up, incorrect training in the technique of physical exercises;</i>
	<i>B) lack of insurance, incompetent use of it, forcing loads, transferring the means and methods of training professional athletes to university students of an unsportsmanlike profile;</i>
	<i>C) shortcomings of educational planning, which does not provide full-fledged physical training and continuity in the formation of motor skills. skills that are being trained.</i>
	<i>D) lack of insurance, incompetent use of it, forcing loads, transferring the means and methods of training professional athletes to university students of an unsportsmanlike profile;</i>
<i>9. While playing basketball, you must not:</i>	<i>A) circle the opponent;</i>
	<i>B) throw into the ring;</i>
	<i>C) hold the opponent.</i>
<i>10. When performing jumps, you should land:</i>	<i>A) only on the feet;</i>
	<i>B) how convenient it is for the jumper;</i>
	<i>C) only on both hands.</i>

Topics of reports (articles)

1. Safety rules during athletics classes, prevention of injuries in athletics classes.
2. History of athletics development.
3. History of the development of athletics in Russia.

Question	Answer options
1. Physical education includes:	A) the subject matter in school
	B) performing physical exercises
	C) the process of improving human capabilities
	D) part of the general culture of society
	E) the natural physical properties of a person
2. The type of education whose specific content is the acquisition of special physical culture knowledge, training in movements, education of physical qualities and the formation of a conscious need for physical education classes is called:	A) physical training
	B) physical culture
	C) physical education
	D) physical education
3. What is the main means of physical education?	A) proper nutrition
	B) morning exercises
	C) physical exercises
4. The technique of physical exercises is understood as:	A) motor actions, with the help of which the motor task is solved expediently with relatively greater efficiency
	B) motor actions that provide the greatest energy consumption
	C) a clearly defined and unchangeable order of movements
5. Several exercises that are selected in a specific order to solve a specific problem are called:	A) complex
	B) Group
	C) algorithm
6. What types of physical training are there?	A) general physical training
	B) special physical training
	C) individual physical training
7. General physical training (GPH) refers to the training process aimed at:	A) for the formation of correct posture
	B) for the harmonious development of a person
	C) for the comprehensive and harmonious development of a person
8. Physical qualities are:	A) individual characteristics that determine the level of a person's motor abilities
	B) innate morphofunctional qualities that make it possible for a

	<i>person</i>
	<i>to be physically active C) a set of abilities that are engaged in physical culture and sports, expressed in specific results</i>
9. Endurance is:	A) the ability to perform a motor action in a minimal amount of time.
	a period of time
	B) the ability to overcome external resistance
	C) the ability to длительному perform any activity for a long time without reducing efficiency
10. Speed is:	A) the ability to perform a motor action in a minimum period of time
	B) the ability to overcome external resistance
	C) the ability to длительному perform any activity for a long time without reducing efficiency

Question	Answer options
1. What year did basketball start?	A) in 1891
	B) in 1901
	C) in 1790
	D) in 1592
	A) Throw

2. What is the name of passing the ball in basketball?	B) Pass
	C) Pass
3. Dimensions of the basketball court?	A) 30x20m
	B) 40x20m
	C) 28x15m
	D) 30x17m
4. What is the weight of a basketball?	A) 500 g
	B) 1200 g
	C) 700 g
	D) 600 g
	E) 600-650 g
5. Choose the correct statement	A) the ball crossing the boundaries of the court, unlike the situation with an out in football, in basketball is not always an out
	B) the ball crossing the boundaries of the court, unlike the situation with an out in football, in basketball is always an out
	C) the ball crossing the boundaries of the court, unlike the situation with an out in football, basketball is not an out
6. A basketball match consists of	A) two halves of 45 minutes and a break of 15 minutes
	B) two halves of 20 minutes
	C) one half of 40 minutes
	D) four halves of 10 minutes
7. In which country is basketball a national sport?	A) USA
	B) Canada
	C) Latvia
	D) Spain
8. In what year did basketball become a game?	A) 1888
	B) 1805
	C) 1891
	D) 1890
9. What year is basketball	A) 1936
	B) 1980
	C) 1991
	D) 1997
10. Which country is the birthplace of basketball?	A) Russia
	B) France
	C) USA
	D) Canada

Question	Answer options
1. Flexibility means:	A) the ability to overcome external resistance
	B) the ability to perform an activity for a long time without reducing efficiency
	C) the ability to perform a movement with a large amplitude
2. Strength is:	A) the ability of a person to exert muscle forces of various sizes in the shortest possible time
	B) the ability of a person to overcome external resistance or resist it due to muscle effort
	C) the ability to lift heavy objects
3. Dexterity is:	A) the ability to accurately dose the amount of muscle effort
	B) the ability to quickly master new movements and rearrange motor activity
	C) the ability to master an action and maintain balance
4. Proper development of what physical qualities is necessary for conducting productive professional activities?	A) speed
	B) strength
	C) Agility
	D) Flexibility
	E) Endurance
	F) all answers are correct
5. The main methods of developing physical qualities are:	A) uniform
	B) repeated
	C) short
	-term D) variable
	E) interval
	F) low-intensity
	G) competitive
6. Which of the sports or training means most effectively develops speed?	
7. Which of the sports or training tools most effectively develops strength?	
8. Which of the sports or training tools most effectively develops dexterity?	
9. Which of the sports or training tools most effectively develops flexibility?	
10. Which of the sports or

<i>Question</i>	<i>Answer options</i>
1. What position numbers do players have along the grid (front line)?	A) 1, 2, 3
	B) 2, 3, 4
	C) 4, 5, 6
	D) 1, 5, 6
2. What is the minimum number of players in a team that must participate in volleyball?	A) 3
	B) 4
	C) 5
	D) 6
3. How many points must one team score to win the 5th volleyball game, provided that the gap from the opponent is at least 2 points?	A) 15
	B) 17
	C) 20
	D) 21
4. How many points must one team score to win in 1-4 volleyball games, provided that the gap from the opponent is at least 2 points?	A) 15
	B) 20
	C) 25
	D) 30

5. What is the score in volleyball is the match incorrect?	A) 3: 2
	B) 3: 1
	C) 3: 0
	D) 4: 0
6. What is the maximum number of games that can be played in a single volleyball match?	A) 3
	B) 4
	C) 5
	D) 6
7. Which of the following is prohibited in volleyball?	A) playing without numbers
	B) playing in cold weather in tracksuits
	C) playing with glasses
	D) playing barefoot
8. What is the maximum number allowed for a volleyball player?	A) 12
	B) 16
	C) 18
	D) 24
9. What is the	A) 10
	B) 12
	C) 14
	D) 16
10. What is the weight of a volleyball ball?	A) 260 – 280 g
	B) 325 – 375 g C
) 410-450 g

Question	Answer options
1. How does an excessive forward tilt of the runner's torso affect running?	A) Reduces the length of the running step;
	B) Helps to carry the hip forward and up;
	C) Increases the speed of running;
	D) Helps to coordinate movements
2. What is the result of a straight torso position when running (or its tilt back)?	A) Narrow setting of the feet;
	B) Incomplete push of the foot;
	C) Free work of the hands;
	D) Reduced running speed.
3. What is the result of a wide setting of the feet when running?	A) Improving athletic performance;
	B) Reducing running speed;
	C) Increasing the length of the running step;
	D) A stronger push with the foot.
4. The line that marks the beginning of the distance...	A) finish line;
	B) center line;
	C) starting line;
	D) dotted line.
5. The most effective exercise for developing endurance is ...	A) short-distance running;
	B) middle-distance running;
	C) long-distance running;
	D) relay running.
6. What is cross-country running?	A) Running with acceleration;
	B) Running on the artificial track of the stadium;
	C) Cross-country running;
	D) Running before jumping.
7. Cross-country is...	A) running with barriers;
	B) cross-country running;
	C) running with acceleration.
8. What are the phases of a run-up jump?	A) Run, push, fly, touchdown;
	B) Push, bounce, fly, touchdown;
	C) Run, bounce, touchdown;
	D) Run, push, touchdown.
9. What happens if the pole vault breaks?	A) The attempt is still counted;
	B) The attempt is not counted;
	C) Penalty points are counted;
	D) The right to make a second attempt is given.

10. How can you describe marathon running?	A) Long-distance running;
	B) Medium-distance running;
	C) Cross-country running;
	D) Short-distance running.

Topics of reports (articles)

Question	Answer options
1. Specify the correct sequence of exercises during the training session	: A) strength, speed, endurance, flexibility
	B) flexibility, endurance, speed, strength
	C) speed, endurance, flexibility, strength
	D) endurance, flexibility, speed, strength
2. Specify the main principles of exercise variability:	A) linear, undulating
	B) straight, short, intermittent
	C) continuous, long
3. An indicator of the intensity zone of physical activity is:	A) Heart rate
	B) Blood pressure
	C) SpO ₂
4. In the process of systematic physical exercises, the pulse at rest:	A) dresses up
	B) becomes more frequent
	C) remains unchanged
	A) about poor health

5. If before each lesson there is approximately the same heart rate before each session, this means:	B) about good recovery of the body
	C) insufficient training of the body
6. If the initial heart rate value tends to increased frequency in general well-being, which indicates:	A) about a good recovery of the body and the growth of fitness
	B) about insufficient recovery of the body after classes
	C) about the correctly selected load
7. нормальным Recovery of heart rate and blood pressure is considered normal at low and medium loads :	A) after 5-15 minutes
	B) after 30 minutes
	C) after
8 hours. What formula can be used to calculate the maximum heart rate of an individual, which should not be exceeded during training sessions?	A) 220-20
	B) 220-30
	C) 220-age
9. What components of a training session exist?	A) Preparatory
	B) Introductory
	C) Main
	D) Final
10. In what part of the training session is the task of developing physical qualities solved?	A) final
	B) preparatory
	C) main

Question	Answer options
1. Who invented basketball as a game?	A) J.Maiken
	B) D. Fraser
	C) D.Naismith
2. What does the word basketball?	A) Basket-ball mean?
	B) Basket
	C) Ball
3. What is the name of an equal score at the end of regular time?	A) Overtime
	B) Foul
	C) Out
4. How much time is allowed to attack the opponent's basket (s)?	A) 15
	B) 20
	C) 24
5. What is the maximum amount of time allowed for a player to throw the ball?	A) 3
	seconds B) 5 seconds C
) 10
	seconds D) 12
seconds 6. How many steps can you take after dribbling the ball?	A) 3 steps
	B) 2 steps
	C) 1 step
7. The technique of possession of the ball includes the following techniques:?	A) catching, stopping, turning, leading the ball
	B) passing the ball, throwing to the basket, catching, stopping, turning
	C) catching, passing, leading the ball, throwing to the basket
8. How long does it take to move from the rear to the front zone(c)?	A) 8
	B) 10
	C) 12
9. How many points are awarded for a goal scored from the penalty line?	A) 2 points
	B) 1 point
	C) 3 points
10. Soviet basketball player, inducted into the NBA Basketball Hall of Fame	A) S. Belov
	B) V. Morozov
	C) Petrov A.

Question	Answer options
1. The preparatory part of the training course: of the training session is characterized by solving the following tasks?	A) 1; 2; 3
	B) 2; 3; 6
	C) 2; 4; 5
	D) 1; 3; 5
2. Specify the sequence of performing OPU exercises:	A) neck muscles
	B) lower limb muscles
	C) upper limb muscles
	D) trunk muscles
3. Factors of dosage of the volume and intensity of physical activity are:	A) number of repetitions
	B) range of motion
	C) starting position
	D) terrain
	E) pace of exercise
	F) degree of difficulty
	G) wind speed and direction
	H) power of muscle work
4. What is the motor density of a training session?	A) the amount of time spent on warm-up exercises
	B) the ratio of the time directly spent on performing exercises to the total time of the lesson
	C) the total time of the lesson
5. Proper breathing during exercise is characterized by:	A) longer exhalation
	B) longer inhalation
	C) inhaling through the nose and exhaling through the mouth
	D) even duration of inhalation and exhalation
6. Distribute in the correct sequence the physical qualities	A) quickness, endurance, strength, flexibility, agility
	B) Endurance, quickness, strength, agility, flexibility
	C) quickness, endurance, flexibility, strength, agility

tested by the GFSK TRP tools:	D) strength, speed, endurance, agility, flexibility
7. Distribute in the correct order Sequences zone sequences the load intensity zones in the correct sequence:	A) up to 130 bpm.
	B) 130-150 bpm.
	C) 150-180 bpm.
	D) from 180 bpm. and above
8. What time of day is the best time to conduct physical education classes?	A) in the morning
	B) at lunch
	C) in the evening
	D) according to age and individual circadian rhythms
9. What is cumulative training effect?	A) processes that occur in the body directly during pregnancy? when performing exercises
	B) the total result of urgent and delayed training effects of a sufficiently large number of sessions, leading to improved fitness
	C) C) the processes that occur in the body immediately after performing exercises
10. Specify the name of the training cycles that are used to build the process of sports (physical) training:	A) training, competitive, recovery
	cycles B) microcycles, mesocycles, macrocycles
	C) operational, current, stage cycles
	D) preparatory, main, competitive cycles

Question	Answer options
1. How far from the center line is the offensive line in volleyball?	A) 2.5 m
	B) 3 m
	C) 3.5 m
	D) 4 m
2. What is the height of the free space above the volleyball playing field?	A) 8.5 m
	B) 10.5 m
	C) 12.5 m
	D) 14.5 m
3. Which of the following is not a mistake when playing ball in volleyball?	A) leg play
	B) kick supported by a partner
	C) 4 kicks
	D) consecutive touches with different parts of the body
4. What are the dimensions of the volleyball court?	A) 8x16 m
	B) 9x18 m
	C) 10.97 x 23.77 m
	D) 15x28m
5. Which kick in volleyball is called a striker?	A) any kick that hits the ball above the batter's head into the opponent's half of the field (other than serve and block)
	B) any kick on the ball that is above the level of the net, on the opponent's half of the field (except for serving and blocking)
	C) any kick on the ball to the opponent's half of the field in a jump (except for serving and blocking)
	D) any kick on the ball to the opponent's half (except for serve and block)
6. How does a volleyball game start?	A) with a serve
	B) with a pass
	C) with a throw-in by the referee under the net
	D) with a throw-in by the referee on one of the parties
7. Which country is considered the birthplace of volleyball?	A) Brazil
	B) Cuba
	C) US \$
	D) Spain
8. Who is considered the creator of the game volleyball?	A) William J. Smith Morgan
	B) Pierre de Coubertin
	C) James Naismith
	D) Holger Nielsen
9. What означает does the word volleyball mean?	A) hand and ball
	B) net and ball
	C) fly kick and ball
	D) hand kick and ball
10. What is the position number of a serving player have in volleyball player?	A) 1
	B) 2
	C) 5

Question	Answer options
1. What are the sprint (short) distances?	A) 800m., 1000m., 1500m.;
	B) 60m., 100m., 200m., 400m.;
	C) 2000m., 3000m., 5000m.

2. What start is used for short-distance running?	A) What start is used for short-distance running?
	B) What start is used for short-distance running?
	C) What start is used for short-distance running?
3. The length of a standard treadmill?	A) 400m;
	B) 330m;
	C) 100m;
	D) 500m.
4. What is the name of the line that the runner crosses at the end of the race:	A) side;
	B) front;
	C) finish;
	D) marking.
5. What physical qualities do sprinting develop?	A) speed;
	B) strength;
	C) endurance;
	D) agility.
6. A distance segment of 20 m long marked with markers in a relay race is called:	A) run-up;
	B) transfer zone;
	C) obstacle course;
	D) finish line.
7. Sprint running with overcoming obstacles is called:	A) aryer;
	B) стунльsteepchaseчез;
	C) cross.
8. When running short distances, the competitor is disqualified:	A) at the request of the chief referee;
	B) false start;
	C) crossing the treadmill;
	D) drug use.
9. Athletes-runners use:	A) sneakers;
	B) spikes;
	C) sneakers.
	D) running shoes;
10.. The main physical qualities necessary for success in short-distance running are:	A) flexibility;
	B) speed;
	C) strength;
	D) speed endurance.

Question	Answer options
1. Professional and applied physical training includes:	A) specially directed and selective use of physical culture and sports facilities to prepare a person for a certain professional activity;
	B) the process of improving motor qualities aimed at comprehensive and harmonious physical development of a person;
	C) a specialized type of preparation for performances in professional sports
2. What is professionogram of a professionogram?	A) a category of profession characterized by stages and levels
	B) the program of activity of a specialist in improving the level of professional education
	C) a model characteristic that presents psychophysical qualities, the proper development of which allows the specialist to successfully perform his professional duties
	D) an assessment of the current level of development of professionally significant qualities
3. Specify the main sections of the professionogram	A) characteristics of the production process and methods of work with their description, features of the organization and mode of work.
	B) specific requirements for working conditions and occupational hazards.
	C) requirements for the level of development of physical qualities and motor abilities, functional, mental and physical abilities.
	D) All answers are correct
4. The applied side of physical education is reflected in the principle:	A) links of physical education with labor and defense practice
	B) comprehensive personal development
	C) health-improving orientation
	D) healthy lifestyle
5. The objectives of the PPP are:	A) formation of motor skills and abilities necessary for the future specialty
	B) achievement of high sports results in applied sports
	C) targeted preparation for competitions
	D) shortening the time of professional adaptation
6. Specify the main factors that determine the content of the PPP:	A) fatigue during the working day
	B) lifestyle
	C) working conditions and nature
7. Motor skills are:	A) the ability to move and take loads
	B) a complex of morphological and psychophysiological properties of a person that meet the requirements of any type of muscle activity and ensure the effectiveness of its performance
	C) the ability to perform complex sets of physical exercises without training
8. The basis of human motor abilities are:	A) the makings of psychodynamic abilities
	B) the degree of training and endurance of muscles
	C) medical indications

9. Professionally significant motor skills:	A) static endurance
	B) Quick reaction
	C) Agility
	D) accuracy of muscle effort
	E) sense of pace
10. Static endurance is:	A) the ability to maintain the body in the same position for a long time
	B) the ability to perform medium-intensity work without fatigue for a short period of time
	C) the ability of the body to perform any work for a long time without a noticeable decrease in performance, as well as its recovery

Question	Answer options
1. When was the International Basketball Federation established?	A) June 21, 1940
	B) December 5, 1955
	C) June 18, 1932
2. Where and when was the first demonstration basketball tournament organized?	A) III O. I. in St. Louis
	B) I O. I. in Athens
	C) VIII O. I. in Paris
3. When was basketball included in the Olympic Games program?	A) 1908, IV O. I., London
	B) 1936, XI-O. I. in Berlin
	C) 1952, XV O. I., Helsinki
4. At which Olympic Games	A) The XVII OI — Rome, 1960
	B) The XIV OI-London, 1948

was women's basketball included in the competition program for the first time?) The XXI OI — Montreal, 1976
. At which Olympic Games did Soviet basketball players become champions?	A) XX OI-Munich, 1972
	B) XVIII OI-Tokyo, 1964
	C) XXI OI - Montreal, 1976
6. Training in moving passes should begin after students have mastered the technique of catching and passing the ball on the spot and stopping in two steps with	A) throwing into the basket
	B) passing the ball
	C) catching the ball
7. Group selection of the ball is most often used	A) with the most active defense and pressure
	B) on the opponent's half of the court
	C) with a clear loss of team
8. The choice of the method and trajectory of transfers also depends	on A) the condition of the sports ground surface
	B) the nature of the opponent's opposition
	C) the game teamwork of the partners
9. Who heads the Russian Basketball Federation?	A) Sergey Chernov
	B) Valery Kuzin
	C) Andrey Kirilenko
10. Choose what apivotis	A) free throw
	B) stop after driving
	C) steps in place without lifting the support leg
	D) throw after driving the ball

Question	Answer options
1. The speed of reaction is:	A) the ability to accurately perform movements in complex and / or unexpectedly changing conditions
	B) the ability of a person to choose an adequate response to various stimuli as quickly as possible in conditions of time and space scarcity
	C) the ability to perform complex coordinated movements efficiently and economically
2. The accuracy of muscle effort is:	A) the ability to perform complex coordination movements efficiently
	B) the ability to develop maximum effort in the shortest possible period of time
	C) the ability to accurately differentiate muscle efforts
3. Which of the sports or training tools most effectively develops static endurance?	
4. What method should be used to develop static endurance?	A) isometric
	B) Circular
	C) competitive
	D) continuous
5. Which of the sports or training tools most effectively develops reaction speed?	
6. What pedagogical test can be used to assess your speed the reaction rate?	A) Cooper test
	B) Falling ruler
	C) Bar test
7. The accuracy of muscle effort (proprioceptive sensitivity) depends on:	A) the degree of skeletal muscle development
	B) the functional state of the cardiovascular system
	C) motor experience
8. When selecting applied physical exercises, it is most important to:	A) their psychophysiological impact was maximally useful and effective for solving specific tasks of the PFPF;
	B) physical exercises were diverse;
	C) the selection of tools took into account the peculiarities of the physique.
9. What does functional	A) the state of fitness of the organs that provide oxygen transport and blood circulation (i.e., lungs, heart, respiratory and cardiovascular systems)

<i>fitness reflects?</i>	<i>B) the state of the nervous system</i>
	<i>C) the state of ODE</i>
<i>10. The functional test is ...</i>	<i>A) a physical exercise performed under the supervision of a doctor;</i>
	<i>B) a method for determining the degree of influence on the body, any disturbing effect or physical exertion;</i>
	<i>C) an exercise performed to determine the maximum result shown by a particular athlete.</i>

<i>Question</i>	<i>Answer options</i>
<i>1. What is the penalty for presenting a red card in volleyball?</i>	<i>A) Warning</i>
	<i>B) Remark</i>
	<i>C) Removal</i>
	<i>D) Disqualification</i>
<i>2. What does the raised 4 fingers of one hand of the volleyball first referee mean?</i>	<i>A) the fourth game</i>
	<i>B) 4 shots on the ball</i>
	<i>C) the time to serve has expired</i>
	<i>D) the player with the number 4</i>
<i>3. Women's net height</i>	<i>A) 2.34 m</i>
	<i>B) 2.14 m</i>
	<i>C) 2.24 m</i>
	<i>D) 2.31 m</i>
<i>4. Men's net height</i>	<i>A) 2.43 m</i>
	<i>B) 2.5 m</i>
	<i>C) 2.2 m</i>
	<i>D) 2.4 m</i>
<i>5. What should the volleyball referee do if the winning team is declared «incomplete»?</i>	<i>A) A draw or victory is awarded to the team that won the games, without taking into account the underplayed game</i>
	<i>B) a draw or victory in the game is awarded at the time of its stoppage, and a draw or victory in the match is awarded based on the fully played and underplayed games</i>
	<i>C) a draw in the match is awarded</i>
	<i>D) the opponent of the «incomplete» team is awarded number of</i>

	<i>points to win games and match</i>
6. What score is recorded in a volleyball match and in each game, if one of the teams is considered «not shown»?	A) 0:1 and 0: 1
	B) 0: 1 and 0: 25
	C) 0: 3 and 0:25
	G) 0: 3 and 0: 1
7. What decision does the volleyball referee make if a team loses the draw on its own serve?	A) the serve goes to the opponent withoutscoring a point to anyone
	B) the serve remains with the previous team, and the opponent gets a point
	C) the serve goes to the opponent, and the opponent gets a point
	D) the serve goesto the opponent and the opponent gets two points
8. What decision does the volleyball referee make if the ball hits the line?	A) the ball is «in the court»
	B) ball «for»
	C) replay
	D) loss of the right to serve withoutscoring a point to anyone
9. What crossed over the chest do the forearms of the volleyball first referee crossed on the chest mean?	A) mutual mistake and replay
	B) end of the game or match
	C) ball «for»
	D) blocking error
10. How does the volleyball line judge signal the inability to make a decision?	A) raise two thumbs up
	B) cross your arms over your chest
	C) lower both arms at your sides

Question	Answer options
1. What are the sprint (short) distances?	A) 800m., 1000m., 1500m.;
	B) 60m., 100m., 200m., 400m.;
	C) 2000m., 3000m., 5000m.
2. What are the phases of short-distance running?	A) speed dial, finish;
	B) starting run, distance running, finishing dash;
	C) start, starting acceleration, distance running, finishing.
3. A distance segment of 20 m long marked with markers in a relay race is called:	A) obstacle course;
	B) transfer zone;
	C) finish line.
4. What physical qualities do sprinting develop?	A) quickness;
	B) endurance;
	C) agility.
5. How many stages of the relay race can each participant run?	A) Only one;
	B) No more than two;
	C) Doesn't matter.
6. The length of the starting run is equal to:	A) 10-15 m;
	B) 20-25 m;
	C) 30-35 m.
7. What are the short distances?	A) 500m-800m.
	B) 30m-400m. C
) 1000m-3000m.
8. The track width is equal to:	A) 1.00 m-1.10 m.
	B) 1.22 m-1.25 m.
	C) 1.31 m-1.35 m
. 9. The length of a standard treadmill is:	A) 500 m.
	B) 250 m.
	C) 400 m.
10. To start, enter the following commands:	A) «Start! » - and a shot is fired from the starting pistol;
	B) » Start! », » Attention «- and a shot is fired from the starting pistol;
	C)» Start! », » Attention», » March « - and a shot is fired from the starting pistol.

Question	Answer options
1. What is the minimum number of referees that a volleyball referee team consists of?	A) 2
	B) 3
	C) 4
	D) 5
2. What card designation of the sanction is not provided in volleyball?	A) yellow card
	B) red card
	C) yellow and red cards together
	D) yellow and red cards separately
3. Which of the following is not prohibited libero serve in volleyball?	A) to perform the
	B) perform blocking
	C) perform an attacking kick with the ball completely above the level of the net
	D) come on substitute an unlimited number of times
4. One of the teams scored 8 points, and the referee	A) 2: 0
	B) 2: 2
made смену a site change. What was the volleyball score at that time?	C) 2:1
	D) any of the above
	A) team captain

5. Which volleyball player has a different T-shirt color from other players?	B) substitute player
	C) player with a warning
	D) libero
6. Which of the following is prohibited in volleyball?	A) blocking an opponent
	's serve B) hitting the ball by a player after the same player has touched the ball in the block
	C) three hits on the ball after the ball has touched its blocking players
	D) several consecutive touches of the ball by blocking players
7. How many seconds are allowed in volleyball to serve after the referee blows his whistle?	A) 9
	B) 8
	C) 5
	D) 3
8. What decision should the referee make if the ball went « for » after both players touched the ball over the net?	A) count the error to the team on whose side the ball fell
	B) count the point to the team on whose side the ball fell
	C) count the mutual error and assign a replay of the draw
	D) count each team 1 point
9. Which of these cases is considered a mistake in volleyball?	A) three strikes in addition to a blocking touch by your own player
	B) three strikes in addition to both opponents touching the ball over the net
	C) simultaneous touch of the ball by different parts of the body
	D) kick with support
10. In which of the following cases in volleyball do multiple touches to the ball count as a single touch?	A) consecutive touch with one action during the first kick
	B) unintentional touch
	of the ball by a player C) several players touched the ball at the same time
